

out the defenders, who held the intrenchments until the last.

The stubbornness of the Belgians and of those who went to their assistance cost them dearly also, so that both sides will have long casualty lists. There is no reliable information as to the loss of life in the city and the damage there.

Crowds of refugees arrived to-night in London. Most of them left Antwerp on Thursday night, and their accounts of the attacks are confused. The Belgians themselves, besides destroying forts, blew up steamers at the docks, and set fire to the petrol stores and everything useful to the invaders. They also took away what the transporters could carry.

**BERCHEM BURNING**

AT LEAST TWO DAYS

Berchem, where the military and other hospitals, the orphanage and some public buildings are situated, is reported to be destroyed. Even if this is an exaggeration, it must be badly damaged, as it was burning at least two days.

The Antwerp railway station also made marks for the shells from the big guns, but, according to some of those who have reached here, the cathedral, which is on the other side of the city nearer the Scheldt, while it was not badly damaged. The inmates of the hospitals and other institutions were removed on Thursday or earlier, and they are now in the way of the way before the Germans arrived.

A question now arising is as to the effect upon the general campaign of the German occupation of Antwerp. The town is a key position, and the greater part of it, escaped, and is reported to be engaged with the Germans.

The strategic importance of Antwerp consisted in its menace to the German line running through Belgium. Now matters have been reversed, and the allies will have to take their turn in keeping the Germans before the city to prevent the Germans from Antwerp attacking their flank or rear, should they be able to advance. The Germans propose, according to the Berlin reports, to use the city as a base for operations against it.

It is a great British command the sea, no great part of the German navy can use the ports, even should Germany overrule Holland's objection to the use of the Scheldt by belligerent ships. Germany, it is thought, claims that, being in possession of the city, she acquires Belgium's right to use the river on equal terms with the Dutch and will proceed to build de- fenses and submarines there to men- ace the British fleet.

**HOLLAND'S POSITION**

**MORE UNCOMFORTABLE**

If Holland should allow these vessels to pass through the Scheldt, Eng- land, it is declared, would certainly proclaim it a breach of neutrality. In any case, Holland's position becomes more and more uncomfortable.

France, according to the French communication, the allies have main- tained their position in spite of the violent attacks at several points. The cavalry still is engaged along the Bel- gian frontier and across the night, and trying to work around the other's wing. This movement has compelled the Ger- mans to withdraw some troops from other parts of the line, and the allies are seizing the opportunity to make a headway.

The communication reports that to the north of Oise the French troops have attained a real advantage in sev- eral parts of their zone. The allies, while in the St. Mihiel region, where they are trying to drive the Germans back across the Meuse, appreciable progress has been made.

The German and Russian forces on

the East Prussian frontier are fighting stubbornly. The Russians apparently continue to make progress slowly, and the Germans, evidently fearing another invasion of East Prussia, according to news from Berlin, received through Rome, are sending reinforcements to their army both by railway and through the Baltic ports.

**RUSSIAN OVERSIGHT**

**GERMAN RESISTANCE**

An unofficial dispatch from Petrograd says the Russians have occupied Marg- grabowa, which is eight miles over the frontier in East Prussia, almost due west of Suwalki. This would in- dicate that the Russians have over- come in this region the German resis- tance, which has been of longer du- ration than at any other section after the Germans were driven back from their attempt to cross the Niemen. Lyck, which also has been occupied by the Russians, is fifteen miles south of Marggrabowa.

Petrograd has drawn the veil for the time being over the operations in Western Poland, where a great battle is expected.

The fortress of Przemyśl, in Galicia, still holds out, but it is reported addi- tional forts have fallen, and that the town is being bombarded. A powder factory is said to have been blown up. Fighting also continues in Hungary, where another Russian force is said to have arrived south of Maramaros Szeged.

The death of King Charles of Ru- mania is likely to have marked effect on that country's action with regard to the war. The late King, who be- longed to the Hohenzollern family, was opposed to the Rumanian joining the allies, although a majority of the people favored the government's tak- ing advantage of the opportunity to annex Transylvania, which is popu- lated largely by Rumanians. It is doubted whether the new King will have sufficient influence to keep his country out of the war, even should he desire to do so.

Germany seems to think Portugal is about to declare for the belligerents, belief probably is based upon the fact that the French and British warships have been visiting that country in con- nection with the celebration of the establishment of the republic.

**SAURE AND LANCE COME INTO PLAY DURING DAY**

FROM THE BATTLE FRONT, Oc- tober 10 (via Paris, 11:51 P. M.).—Saure and lance came into play many times today. The French, British and Ger- man Hussars, Lancers, Dragoons and Cuirassiers in enormous numbers, came into contact near Lille. There were no brilliant charges by long lines of horsemen to record, but the French and French often crossed swords with the blue-gray clad Germans.

There is not an inch of ground hereabouts which does not show traces of the awful character of the battle. The town of Albert is a mass of ruins. Roye has disappeared under constant bom- bardment. It was the centre of the German effort to break through the al- lied lines. The French, British and taken advantage of many quarries in the vicinity, where they placed guns which were beyond the reach of the French artillery.

**COTTON NONCONTRABAND; NOT SUBJECT TO SEIZURE**

(Continued From First Page.)

fully subject to seizure or detention by any belligerent power when carried in neutral bottoms, and, as for that matter, shipments of cotton oil to Ger- man territory, if having a neutral, and not a belligerent, destination, as de- clared in the London convention, is, as for instance, in the London con- vention, are permissible under interna- tional law, and should be free from seizure.

**TROUBLE WITH SITUATION**

**ONE OF TRANSPORTATION**

"The trouble with the cotton oil sit- uation appears to me to be one of transportation, growing out of the reported action of the Holland-American Line in declining to accept shipments. The Netherlands government disclaims any connection with this action of the steamship company, which is a pri- vately owned line.

"The department has inquired of ex- porters of cotton oil if they know of any shipment of cotton oil which has been seized or detained by the British government, and, if so, to furnish the department with the circumstances.

"The British ambassador has notified the department that his government in- tends to revise their proclamation re- specting contraband, and that, mean- while, shipments to Holland in neutral vessels of goods, such as cotton oil, respecting which the Netherlands gov- ernment have placed an embargo against re-exportation, would not be considered contraband of war or in- terfered with on that account.

"The department keenly appreciates the cotton seed products situation and has given it extended consideration, as well as the general subject of trade with the Holland ports. That ques- tion, as may easily be seen, involves con- siderations other than the mere right

of neutrals to deal with neutral ports. While on the subject of cotton, there is no impediment to the shipment of cotton to any country, not excepting the belligerents. Cotton is noncontra- band, for the manifest reason that in its raw state it cannot be used for pur- poses of war. In order to be avail- able for use by the armies, navies or forces of the belligerents it has first to undergo a long process of manu- facture. It is ranked as a noncontra- band in the London convention. Of course, shipments of cotton to the countries, if they are to escape deten- tion, must be shipped in American or other vessels flying neutral flags. There is no legal impediment to a shipload of cotton going direct to Hamburg, con- signed to German spinners, and, per- sonally, I hope to see the exportation of cotton to the countries at interest in- crease. The English give preference I understand to Egyptian cotton, but the other countries at war, no doubt, in the need of raw cotton. Apparently Western American cotton interests should, if they have not already done so, seek out these markets.

**EMBARGO ON ARTICLES**

"It appears that the Netherlands gov- ernment has placed an embargo upon the exportation from that country of the following articles: wheat, wheat flour, rye, rye flour, barley, oatmeal, rice, fresh vegetables and fruits, sal- mon, Indian corn meal, barley meal, as well as all products of oats, wheat, rye, barley, buckwheat and Indian corn, and fuel articles useful in war, food products, sugar beets, cotton waste, lin- seed, rape seed, all oil seeds except caraway, mustard and poppy seed, rice bran, all cattle feed, cake flour and meal thereof, sugar pulp and meal flour.

## PILES CURED AT HOME BY NEW ABSORPTION METHOD

If you suffer from bleeding, itching, blind or protruding Piles, send me your address, and I will tell you how to cure yourself at home by the new absorp- tion treatment; and will also send some of this home treatment free for trial, with references from your own local- ity if requested. Users report im- mediate relief and speedy cures. Send no money, but tell others of this offer. Write to-day to Mrs. M. Summers, Box P. Notre Dame, Ind.—Advertisement.

## CARDINAL FERRATA PASSES AWAY AT ROME

Pope Benedict's Appointee to Papal Secretaryship of State Victim of Appendicitis.

**WAS INFLUENTIAL DIPLOMAT**

Served at Paris, Bern and Brussels, and Was Papal Delegate to World's Eucharistic Congress in April, 1913.

ROME, October 10.—Cardinal Dom- inic Ferrata, the papal secretary of state, died today.

Cardinal Ferrata was stricken with appendicitis soon after his appoint- ment by Pope Benedict, September 4, to the office of papal secretary of state.

**HE WAS RECOGNIZED AS INFLUENTIAL DIPLOMAT**

Cardinal Ferrata was regarded as having a diplomatic influence such as comes to few of the college of cardinals, and for this reason, it is said, he was named by Pope Benedict XV. as his secretary of state in succession to Cardinal Merry del Val, who served under Pius X.

The cardinal was for six years papal nuncio at Paris, and it was believed that during his life the relations be- tween France and the Vatican would once again be restored to those of the most cordial nature, in view of the friendliness shown him from time to time by French leaders. His choice as most pleasing to the Italian govern- ment, as his relations with the house of Savoy had always been of the same

cordial nature as those with the French.

Cardinal Ferrata represented the papacy also, in turn, at Bern and at Brussels, putting an end to the dissen- sions which had until then embittered the relations between the state and the Roman Catholic Church in Switzerland and Belgium. He was sixty-seven years of age.

Besides serving at these important posts, Cardinal Ferrata was papal legate to the World's Eucharistic Con- gress on the island of Malta in April, 1913, and on his return to Rome gave Pius X. an extensive account of it.

The cardinal was born at Montef- ascone, Diocese of Crotoli, in Italy, and was mentioned as a possible successor of Pius X. and had long been spoken of for papal secretary of state.

**Relieve the Kidneys**

If your kidneys are not able to han- dle the waste products of the body, it is highly important that they be put into good working condition. Improper kid- ney action causes more sickness, suf- fering and serious complications than any other disease, because the blood is filtered and purified through the kid- neys. If you are troubled with head- ache, dizziness, aching joints, nausea, or other symptoms of kidney disease, you should begin at once the use of Warner's Safe Kidney and Liver Rem- edy. Aside from the soothing and heal- ing action it exerts on these most deli- cate organs, it has a direct action on the circulation, the perspiratory glands become active and helps eliminate the waste products by way of the skin. Warner's Safe Kidney and Liver Remedy is not only beneficial in the early stages of kidney disease, but it is a wonderful rem- edy for the advanced stages of urinary disorders. Bright's disease, etc. It stimulates the enfeebled organs and heals at the same time. At all drug- gists in 50c and \$1.00 sizes. Write for free sample. Warner's Safe Remedies Co., Dept. 285, Rochester, N. Y.—Advertisement.

A special program will be rendered by the school. All scholars and members are requested to be present, and visitors are extended a cordial welcome.**

**PURE RICH BLOOD PREVENTS DISEASE**

Bad blood—that is, blood that is impure or impoverished, thin and pale—is responsible for more ailments than anything else.

It affects every organ and function. In some cases it causes catarrh; in others, dyspepsia; in others, rheuma- tism, and in still others weak, tired, languid feelings and worse troubles. It is responsible for run-down con- ditions, and is the most common cause of disease.

Hood's Sarsaparilla is the greatest purifier and enricher of the blood the world has ever known. It has been wonderfully successful in removing the red blood corpuscles and building up the whole system. Get it to-day.
